- Re-structure **intake, orientation and learning communities** around Meta-Majors
- **Market Guided Pathways** to incoming students with visuals and video
- Utilize **Professional Development** activities to help all employees understand and connect to Guided Pathways
Guided Pathways in the Classroom

• Students view courses as a means to an end – a good job!
• Know student’s career goals
• Link learning outcomes & instruction to “real-world” career applications
• Understand how your courses fit into programs
• Help lead Department program & course review
• Coach students to follow their Guided Pathway
• Keep the end in mind: “Assurance of a good job at the end of the student’s program is the key to enrollment, retention and completion.”

-- Davis Jenkins, Community College Research Center
