Fort Pierce • Okeechobee St. Lucie West • Stuart Vero Beach
What Will I Learn?

As a Baccalaureate Degree Nursing student, you will expand upon the knowledge base of the Associate Degree nurse.

In this post licensure program, you will gain knowledge in the advanced study of pathophysiology and symptomatology, pharmacotherapeutics, pharmacodynamics, and pharmacokinetics.

You will also study the relationship of nursing research and utilization of evidence-based practice, legal and ethical decision making, community and public health nursing and nursing leadership and management.

Why Choose Nursing?

If you’re a registered nurse eager to advance to leadership and management positions, the B.S. in Nursing will provide you with a highly-valued credential.

Hospitals and health care organizations are seeking nursing supervisors and managers who are effective leaders, ready to manage complex resources in today’s dynamic health care environment.

Treasure Coast hospitals strongly prefer to have 85% of their nurses credentialed with a B.S.N. Degree. As a result, there are excellent career opportunities for registered nurses with the four-year degree.
